ALL STEIN ANCILLARY THERAPY PARTNERS:

We want to thank all of our partner facilities that worked diligently this past week with us to ensure that we were continuing to meet the clinical needs of your resident's while making sure that we also took all precautions necessary to limit the exposure to any possible effects of Covid-19.

We are continuing to make sure each of our therapy teams have put the new updated sanitation polies in place at your homes and they are documenting adherence accordingly. In addition, we are monitoring and taking action(s) on regulatory correspondence from state and local agencies in regard to such issues as tele-health options and licensing requirements.

We will continue to update you often as this situation continues to evolve. We pray that your residents and your staff all remain healthy during this trying time.
